

### 3 Interconnected Principles

The balance of these 3 principles creates an optimal space — internally and externally — for organizing and executing your vision(s) to achieve what you define as a successful, full life.

1. A focus on **Positivity** cultivates and creates a favorable living and working environment (mentally, physically, spiritually) to work towards your goals. This same energy you can put into your relationships whether business or personal.
2. Being in your best — or better — headspace allows **Productivity** to happen. Your ability to produce flows directly into your goals and relationships.
3. **Prosperity** is not solely your financial success, but rather your “wealth of life” as it aligns with achieving your goals.

#### POSITIVITY

What makes you feel or be more positive?  
Who or what contributes to your positivity?

A large, empty dashed-line box intended for handwritten notes related to the Positivity section.

#### PRODUCTIVITY

What allows you to be most productive?  
What tasks or activities directly impact your goals?

A large, empty dashed-line box intended for handwritten notes related to the Productivity section.

#### PROSPERITY

What goals are you working towards?  
What are you seeking to accomplish?

A large, empty dashed-line box intended for handwritten notes related to the Prosperity section.

**NOTES:**
